Agile Product Management

Using Design Thinking to create valuable products in the Lean Enterprise

Discover and apply the mindset, skills, and tools you need to create successful products and solutions that are desirable, viable, feasible, and sustainable.

The Agile Product Management course harnesses the power of Design Thinking to develop innovative solutions with proven SAFe capabilities to execute on those visions. Learn the right mindset, skills, and tools to create successful products—from inception to retirement—using Agile techniques. Recognize how Continuous Exploration fuels innovation and helps you define a vision, strategy, and roadmap to tap into new markets. Find out how to accelerate the product life cycle to get fast feedback and quickly deliver exceptional products and solutions that delight customers—all while aligning with your organization's strategy, portfolio, evolving architecture, and solution intent.

> "There are many courses available to help build a product the right way, but this course helps the Product Manager build the right product."
>
> — **Eshwar Jakkula,** SPC and Enterprise Coach

Prerequisites

You should be familiar with Agile principles and practices and have attended at least one SAFe course prior to attending. A background in product or solution management is highly recommended.

What you get

Class registration includes:

- Attendee workbook
- Eligibility to take the SAFe® Agile Product Manager (APM) 6.0 certification exam
- One–year membership to SAFe Studio
- Course certificate of completion

Attendees must attend all three days of the course in order to qualify for the exam.

Professional Development Units (PDUs) and Scrum Education Units (SEUs)

- Attendees may be eligible to apply for 24 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications
- Attendees may be eligible to apply for SEUs under category C, toward earning or renewing their CSP through Scrum Alliance
